

Street sealing will begin on Tuesday July 8th 2025.

Please see the attached map.

As of this posting, these are the areas that will be worked on Tuesday, July 8th:

At approximately 6:00am, work will begin on Hilltop Drive. Traffic will be restricted for approximately 2 hours, depending on weather conditions.

Work will then begin on Dakota, Holly, and the portion of Ellsworth adjacent to Holly, on a rolling schedule.

Work will continue from there to the portion of Lincoln between Ellsworth and Bryson; and the portion of Bryson between Lincoln and Commercial.

Depending on weather conditions, work will require blocking traffic on treated roads for approximately 2 hours.

Workers have been, and will continue to be, knocking on doors to notify residents in the work area.

Look for more announcements to come regarding this project as it continues.
