§ 52.12 EMERGENCY RESTRICTIONS.

(A) *General.* If the City Council or the Mayor finds that due to the inability of the city's water purveyor to provide its usual and customary supply or due to drought conditions or equipment failure, the city's water supply has or may become significantly depleted to the point where a sufficient supply of water to meet all customary and unusual demand may be threatened, the City Council, by resolution, or the Mayor by executive order, may declare a water advisory, water watch, water warning or water emergency, during which time the measures and provisions described herein shall be in effect to produce an orderly and equitable reduction of water consumption until, by resolution of the City Council or by order of the Mayor, the city declares the water advisory, water watch, water warning or water emergency to be ended. The term **WATER ALERT**, as used in this section, includes a water advisory, water watch, water warning or water emergency.

(B) *Non-essential water use.* The following activities relating to water use deemed to be non-essential water uses and are subject to regulation, restrictions or prohibition pursuant to terms of this section:

(2) *Washing mobile equipment.* The washing of automobiles, trucks, trailers, trailer houses, railroad cars or any other type of mobile equipment, except where required by health and sanitary requirements and except from water contained in a container not exceeding five-gallon capacity or from a hose equipped with and automatic shutoff device at the end from which water is taken. This division (B)(2) does not include commercial vehicle washing facilities operating at fixed locations, unless specified in resolution or executive order declaring water alert;

(3) *Cleaning buildings.* The washing of the inside and outside of dwellings and buildings, except pursuant to an exception granted under this section;

(8) *Cleaning equipment and machinery.* The washing and cleaning of any business or industrial equipment and machinery, except where required by health and sanitation requirements and except pursuant to an exception granted under this section.

(C) *Alert levels and declaration of alert.*

(1) *Water advisory.* A water advisory may be declared when future water shortages are anticipated. This typically occurs when the area has experienced light winter snowfalls, or little or no spring rains. These factors together with high temperatures and limited amounts of forecasted precipitation may lead to a water advisory declaration. The water advisory may be declared to ensure that the needs of the city's water customers currently or in the foreseeable future are adequately met. Indicators of the need to declare a water advisory include:

(a) Notification from the city's water purveyor that sustained water treatment plant production is at near 80% capacity and current and forecasted conditions warrant the limit or curtail all nonessential use of water;

(b) Extended periods of hot and dry weather are forecasted; and

(c) Noticeable increases in the average and peak demands for water consumption.

(2) *Water watch.* A water watch may be declared when a water shortage or equipment failure poses a potential threat to the ability of the city's water system or its water purveyor to meet the needs of the city's customers currently or in the foreseeable nature. Indicators of the need to declare a water watch include:

(a) Notification from the city's water purveyor that sustained water treatment plant production is near 85% capacity and current and forecasted conditions warrant the limitation or curtailment of all non-essential use of water;

(b) Extended periods of hot and dry weather have already occurred and continuation of conditions is forecasted; and

(c) Increases in the average and peak demands for water consumption continue and are trending upwards towards more usage.

(3) *Water warning.* A water warning may be declared when a water shortage or equipment failure poses a serious threat to the ability of the city's water system or its water purveyor to meet the needs of its customers currently and in the foreseeable future. Indicators of the need to declare a water warning include:

(a) Notification from the city's water purveyor that sustained water treatment plant production is at near 90% capacity and current and forecasted conditions warrant the limitation, curtailment or the prohibition of selected or all non-essential use of water;

(b) Extended periods of hot and dry weather have already occurred and continuation is forecasted; and

(c) Increases in the average and peak demands for water consumption continue and are trending upwards towards more usage.

(4) *Water emergency.* A water emergency may be declared when a water shortage or equipment failure poses an imminent and severe threat to the ability of the city's water system or its purveyor to meet the needs of its customers. The likelihood of areas running out of water is great. Indicators of the need to declare a water emergency include:

(a) Notification from the city's water purveyor that sustained plant production is greater than 95% capacity, and current and forecasted conditions warrant limitations, curtailment or the prohibition of all non-essential use of water;

(b) Extended periods of hot and dry weather have already occurred and continuation of the conditions is forecasted; and

(c) Increases in average and peak demands for consumption continue and are trending upwards more usage.

(5) *Method of publication of advisory.* The city shall make the declaration of a water alert known to its water customers through posting a notice on the front door at City Hall and by public announcement through newspaper, radio, television, the internet and other mass media that a water advisory has been declared. If a water emergency is declared, the city shall in addition to the foregoing methods of notification use such additional means of notification as may exist and which are practical, including phone calls to homes and businesses, door-to-door notification and public emergency notification systems.

(D) *Actions by alert level.*

(1) *Water advisory.* If a water advisory is declared, the following restrictions shall take effect 24 hours after declaration:

(a) Outdoor watering of any kind is restricted to the hours of 8:00 p.m. to 7:00 a.m. and city water customers are requested to voluntarily limit their outdoor watering to three times per week; and

(b) City water customers are requested to voluntarily minimize or discontinue non-essential water uses.

(2) *Water watch.* If a water watch is declared, the following restrictions shall take effect 24 hours after the declaration:

(a) Outdoor water of any kind is restricted to the hours of 8:00 p.m. to 7:00 a.m. City water customers shall limit their watering activities to two times per week. Homes or business fronting on the north and east shall be permitted to water Tuesday and Saturday at the above times and homes or business fronting south and west shall be permitted to water Wednesday and Sunday at the above times; and

(b) All other non-essential water use shall be discontinued.

(3) *Water warning.* If a water warning is declared, the following restrictions shall take effect immediately upon declaration:

(a) Outdoor watering of any kind is restricted to the hours of 8:00 p.m. to 7:00 a.m. Water customers shall limit their watering activities to one time per week. (b) Other non-essential water use such as those described in the section titled “non-essential water use” shall be discontinued unless a specific waiver is granted by the city.

(4) *Water emergency.* If water emergency is declared, the following restrictions shall take effect immediately upon declaration:

(a) All outside water use, except for human consumption, sanitation and firefighting is prohibited. This prohibition includes all non-essential water uses. The Mayor is authorized to close municipal swimming pool if that closure is included in the water alert declaration;

(b) All commercial and industrial use of water not essential in providing products or a service is prohibited; and

(c) Water use not necessary for the preservation of life or the general safety or welfare of the community is prohibited.

(E) *Permitting the reasonable use of water.* The City Council or Mayor may grant an exception to any of the prohibitions contained in this section if said water use is necessary to maintain appropriate health and sanitation conditions.

(F) *Exception permits.* Upon written application by a water user, the Mayor may grant a permit for uses of water otherwise prohibited by this section would:

(1) Would cause an unnecessary and undue economic or other hardship to the applicant; or

(2) Would cause an emergency condition affecting or threatening the health, sanitation, fire protection or safety of the applicant.

CHAPTER 53: SEWERS

- 53.99 Penalty

§ 53.01 FEES; RATES.

(A) Sewer fees shall be payable each month with the water bill. Each establishment connected to the sewer collection system of the city shall be required to remit the full amount of rental fee with the monthly water bill. Multiple-unit dwellings discharging sewerage through a single sewer line will be billed for each unit.

(B) Monthly rates for the use of sewer collection system of the city are established as follows (effective date 12-22-2014):

- (1) Up to 5,000 gallons of water usage: \$17;

- (3) Over 10,000 gallons the rate will be \$26, plus \$1 per 1,000 gallons.

(C) Sewer fees are based on the average number of gallons of water used between October and April in order not to penalize those who irrigate during the summer months. The monthly charges are as follow, again based on a per household unit.

(D) Sewer fees are payable in advance as rent.

(E) All RV parks with five or more hook-ups will be charged \$8 per hook-up per year. (Prior Code, § 13.12.010) (Ord. 326, passed - -1988; Ord. 362, passed - -1994; Ord. 0596-1, passed - -1996)

§ 53.02 CONNECTION APPLICATION.

(A) Any person desiring wastewater service from the wastewater collection system of the municipality for premises not theretofore connected with the system shall apply for connection by obtaining a non-refundable permit of \$200. This permit will allow for the city to provide the services of wastewater collection line size, location, depth, type of pipe (clay, PVC) and the city right-of way. This permit shall be valid for ten working days, after which a new permit and fee must be obtained. Such permit shall give an exact description of the premises to be served. § 53.03 SUMP PUMPS.

(A) *Purpose.* The City Council finds that the discharge of water from roof, surface, ground water sump pump, footing tile or swimming pool or other natural precipitation of the city sanitary sewage system will, and has on numerous occasions in the past, flooded and overloaded the sanitary sewage system to such an extent as to cause significant and grave damage to the waste treatment plan and sanitary sewer system. Such damage is caused by the backup of sewage into the lift station and private properties. The City Council, therefore, finds it essential to the minimization of damage to property that the provisions of this section be strictly enforced to avoid emergencies in the future.

(B) *Prohibition against discharges into sanitary sewer system.* No water from any roof, surface, ground water, sump pump, footing tile, swimming pool or other natural precipitation shall be discharged into the sanitary sewer system. Dwellings and other buildings and structures which require, because of infiltration of water into basements, crawl spaces and the like, a sump pump discharge system, shall have a permanently installed discharge line which shall not at any time discharge water into the sanitary sewer system, except as provided herein. A **PERMANENTLY INSTALLED DISCHARGE LINE** shall be one which provides for year-round discharge capability to either the outside of the dwelling, building or structure, or is connected to the city storm sewer or discharges through the curb and gutter to the street. It shall consist of a rigid discharge line, without valving or quick connections for altering the path of discharge.

(C) *Exceptions.* In certain locations where surface storm water discharge would create a safety hazard during freezing weather, connection to the sanitary sewer, may be maintained from November 1 to April 1. In no case shall any connection to the sanitary sewer be maintained from April 1 to November 1. Exceptions will be granted by permit on a case by case basis as determined by the City Inspector.

(D) *Disconnection.* Before any person, firm or corporation having a roof surface, ground water, sump pump, footing tile or swimming pool now connected and/or discharging into the sanitary sewer system shall disconnect and/or remove the same. Any disconnects or openings in the sanitary sewer shall be closed in an effective, workmanlike manner, as approved by the city.

(E) *Inspection.*

(1) Every person owning improved real estate that discharges into the city's sanitary sewer system shall be subject to city employee(s) inspections of his or her buildings to confirm that there is no sump pump or other prohibited discharge into the sanitary sewer system. Any person refusing to allow his or her property to be inspected shall immediately become subject to the surcharge hereinafter provided for. Any property found to violate this division (E)(1) shall make the necessary changes to comply with this division (E) and such changes shall be verified by city employee(s).

(2) In lieu of having inspection by a city employee(s), the property owner shall furnish a certificate from a licensed plumber in a form acceptable to the city certifying that the property has no prohibited discharge into the municipal sanitary sewer system.

(F) *Future inspections.*

(1) Inspections shall be performed by city employees(s) in an unsystematic, random manner of any property owner that owns improved real estate which is connected to the city's sanitary sewer system. Such property owner shall, within 30 days after written notice from the city:

(a) Allow an employee of the city to inspect both the inside and outside of buildings located on the property to confirm that there is no prohibited discharge into the municipal sanitary sewer system; or

(b) In lieu of having inspection by a city employee, the property owner may furnish a certificate from a licensed plumber, in a form acceptable to the city, certifying that the property has no prohibited discharge into the municipal sanitary sewer system. Failure to provide such certificate of compliance within the above time shall make the property immediately subject to the surcharge hereinafter provided for until the property is inspected and/or compliance is met, including any penalties and remedies that the city has provided in its policies and codes, by way of assessments, and administrative expenses in achieving compliance.

(2) The Council may, by resolution, provide for a waiver by reason of hardship from the requirements of this section.

(G) *Waivers.*

(1) The City Council shall have the power and duty of hearing and deciding requests for waivers from the applicability of the provisions of this section where strict enforcement would cause

undue hardship because of circumstances unique to the individual property under consideration or cause a safety problem. This would also include cases that would not be practical or feasible to correct the clear water discharge problem.

(2) Application for waivers pursuant to this section shall be addressed in writing to the city's Finance Office. The applications shall, at minimum, identify the property for which the waiver is being applied for, the name of the property owner/applicant, and describe in detail what characteristics of the subject property create an undue hardship. Within a reasonable time, the City Council shall make its decision on the matter and send a copy of such decision to the applicant by regular mail.

(3) Upon approval of an application for a waiver, a property owner shall be allowed to discharge directly into the sanitary sewer system for the time specified in the City Council's written decision. The applicant will be required to agree to pay an additional fee for the additional sewer service, along with the regular monthly charge. Fees for this service will be based on estimated yearly average amounts discharged to the sanitary sewer.

(Ord. 2011-9-13, passed 11-7-2011) Penalty, see § 53.99

§ 53.99 PENALTY.

(A) Any person violating any provision of this chapter for which no specific penalty is prescribed shall be subject to § 10.99 of this code of ordinances.

(B) All properties found to have violated § 53.03 of this chapter will be subject to the following penalties.

(1) A surcharge of \$100 for each month until the property owner submits proof to the city that the property is brought into full compliance.

(2) In addition to the \$100 charge, a property owner or other person who is not in compliance with § 53.03 of this chapter may be mailed, by regular mail, a notice that such violation shall cease and desist within a time limit provided by the City Council.

(3) If such violation does not cease and desist by the established time limit, the person violating § 53.03 of this chapter shall be guilty of a misdemeanor.

CHAPTER 75: AUTO IMPOUNDMENT

Section

- 75.01 Purpose
- 75.02 Standards for impoundment
- 75.03 Towing and storage
- 75.04 Procedures for impoundment
- 75.05 Search incident to impoundment based on criminal activity
- 75.06 Disposition of vehicles after impoundment

§ 75.01 PURPOSE.

This chapter provides the standards and procedures for the Gettysburg Police Department personnel when towing, inventorying, searching, impounding, and disposing of privately owned vehicles (POVs). This policy is based on:

(A) The interests of the Services and DLA in crime prevention, traffic safety, and the orderly flow of vehicle traffic movement.

(B) The vehicle owner's constitutional rights to due process, freedom from unreasonable search and seizure, and freedom from deprivation of private property.
(Ord. 2022-01-03, passed 2-7-2022)

§ 75.02 STANDARDS FOR IMPOUNDMENT.

(A) POVs should not be impounded unless the vehicles clearly interfere with ongoing operations or movement of traffic, threaten public safety or convenience, are involved in criminal activity, contain evidence of criminal activity, or are stolen, the operator has been arrested, detained, or the vehicle has been abandoned.

(B) The impoundment of a POV would be inappropriate when reasonable alternatives to impoundment exist.

(1) Attempts should be made to locate the owner of the POV and have the vehicle removed.

(2) The vehicle may be moved a short distance to a legal parking area and temporarily secured until the owner is found.

Gettysburg - Traffic Code

(3) Another responsible person may be allowed to drive or tow the POV with permission from the owner, operator, or person empowered to control the vehicle. In this case, the owner, operator, or person empowered to control the vehicle will be informed that law enforcement personnel are not responsible for safeguarding the POV.

(C) Impounding of POVs is justified when any of the following conditions exist:

(1) The POV is illegally parked:

(a) On a street or bridge, in a tunnel, or is double parked and interferes with the orderly flow of traffic.

(b) On a sidewalk, within an intersection, on a crosswalk, on a railroad track, in a fire lane, or is blocking a driveway so that the vehicle interferes with operations or creates a safety hazard to other roadway users or to the general public. An example would be a vehicle parked within 15 feet of a fire hydrant or blocking a properly marked driveway of a fire station or aircraft alert crew facility.

(c) When blocking an emergency exit door or any public place (installation, theater, club, dining hall, hospital, and other facility).

(d) In a "tow-away" zone that is so marked with proper signs.

(2) The POV interferes with:

(a) Street cleaning or snow removal operations and attempts to contact the owner have been unsuccessful.

(b) Emergency operations during a natural disaster or fire or must be removed from the disaster area during cleanup operations.

(3) The POV has been used in a crime or contains evidence of criminal activity.

(4) The owner or person in charge has been apprehended and is unable or unwilling to arrange for custody or removal.

(5) The POV is mechanically defective and is a menace to others using the public roadways.

(6) The POV is disabled by a traffic incident and the operator is either unavailable or physically incapable of having the vehicle towed to a place of safety for storage or safekeeping.

(7) Law enforcement personnel reasonably believe the vehicle is abandoned.
(Ord. 2022-01-03, passed 2-7-2022)

§ 75.03 TOWING AND STORAGE.

(A) Impounded POVs may be towed and stored at the impounded rate of \$25 per day by either the Gettysburg Police Department or a contracted wrecker service depending on availability of towing services and the local commander's preference.

(B) The installation commander will designate an enclosed area on the installation that can be secured by lock and key for an impound lot to be used by the civilian wrecker service. An approved impoundment area belonging to the contracted wrecker service may also be used provided the area assures adequate accountability and security of towed vehicles. One set of keys to the enclosed area will be maintained by the installation law enforcement officer or designated individual.

(C) Temporary impoundment and towing of POVs for violations of the installation traffic code or involvement in criminal activities will be accomplished under the direct supervision of law enforcement personnel.

(Ord. 2022-01-03, passed 2-7-2022)

§ 75.04 PROCEDURES FOR IMPOUNDMENT.

(A) *Unattended POVs.*

(1) DD Form 2504 (Abandoned Vehicle Notice) will be conspicuously placed on POVs considered unattended. This action will be documented by an entry in the installation law enforcement desk journal.

(2) The owner will be allowed three days from the date the POV is tagged to remove the vehicle before impoundment action is initiated. If the vehicle has not been removed after three days, it will be removed by the installation towing service or the contracted wrecker service. If a contracted wrecker service is used, a DD Form 2505 (Abandoned Vehicle Removal Authorization) will be completed and issued to the contractor by the installation law enforcement office.

(3) After the vehicle has been removed, the installation law enforcement officer or the contractor will complete DD Form 2506 (Vehicle Impoundment Report) as a record of the actions taken.

(a) An inventory listing personal property will be done to protect the owner, law enforcement personnel, the contractor, and the commander.

(b) The contents of a closed container such as a suitcase inside the vehicle need not be inventoried. Such articles should be opened only if necessary to identify the owner of the vehicle or if the container might contain explosives or otherwise present a danger to the public. Merely listing the container and sealing it with security tape will suffice.

(c) Personal property must be placed in a secure area for safekeeping.

(4) DD Form 2507 (Notice of Vehicle Impoundment) will be forwarded by certified mail to the address of the last known owner of the vehicle to advise the owner of the impoundment action and request information concerning the owner's intentions pertaining to the disposition of the vehicle.

(B) *Stolen POVs or vehicles involved in criminal activity.*

(1) When the POV is to be held for evidentiary purposes, the vehicle should remain in the custody of the applicable Service or DLA until law enforcement purposes are served.

(2) Recovered stolen POVs will be released to the registered owner, unless held for evidentiary purposes, or to the law enforcement agency reporting the vehicle stolen, as appropriate.

(3) A POV held on request of other authorities will be retained in the custody of the applicable Service or DLA until the vehicle can be released to such authorities.
(Ord. 2022-01-03, passed 2-7-2022)

§ 75.05 SEARCH INCIDENT TO IMPOUNDMENT BASED ON CRIMINAL ACTIVITY.

Search of a POV in conjunction with impoundment based on criminal activity will likely occur in one of the following general situations:

(A) *The owner or operator is not present.* This situation could arise during traffic and crime-related impoundments and abandoned vehicle seizures. A property search related to an investigation of criminal activity should not be conducted without search authority unless the item to be seized is in plain view or is readily discernible on the outside as evidence of criminal activity. When in doubt, proper search authority should be obtained before searching.

(B) *The owner or operator is present.* This situation can occur during either a traffic or criminal incident, or if the operator is apprehended for a crime or serious traffic violation and sufficient probable cause exists to seize the vehicle. This situation could also arise during cases of intoxicated driving or traffic accidents in which the operator is present but incapacitated or otherwise unable to make adequate arrangements to safeguard the vehicle. If danger exists to the police or public, or if there is risk of loss or destruction of evidence, an investigative-type search of the vehicle may be conducted without search authority.

(Ord. 2022-01-03, passed 2-7-2022)

§ 75.06 DISPOSITION OF VEHICLES AFTER IMPOUNDMENT.

(A) If a POV is impounded for evidentiary purposes, the vehicle can be held for as long as the evidentiary or law enforcement purpose exists. The vehicle must then be returned to the owner without delay unless directed otherwise by competent authority.

(B) If the vehicle and vehicle inventory is unclaimed after 30 days from the date notification was mailed to the last known owner, or the owner released the vehicle by properly completing DD Form 2505, the vehicle will be disposed of by one of the following procedures:

(1) Release to the lienholder, if known.

(2) Processed as abandoned property.

(3) Sold by sealed bids by the Gettysburg Police Department with funds being put towards tow fees, with remaining funds going towards impound lot budget.

(C) If vehicle is sold by sealed bid, a completed copy of form SDDOR 1026 along with a bill of sale will be given to the winning bidder at the time of payment.
(Ord. 2022-01-03, passed 2-7-2022)

§ 110.05 FULL-SERVICE ON-SALE RESTAURANTS.

(A) *Definitions of terms.* For the purpose of this section, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

BAR. Any permanently installed counter within the restaurant area from which alcoholic beverages are regularly served to customers by a person who is tending bar or drawing or mixing alcoholic beverages.

FULL-SERVICE RESTAURANT. Any restaurant at which a waiter or waitress delivers food and drink offered from a printed food menu to patrons at tables, booths or the bar. Any restaurant that only serves fry orders or food such as sandwiches, hamburgers or salads is not a **FULL-SERVICE RESTAURANT**.

RESTAURANT. Any area in a building maintained, advertised and held out to the public as a place where individually priced meals are prepared and served primarily for consumption in such area and where not more than 40% of the gross revenue of the restaurant is derived from the sale of alcohol or alcoholic beverages. The **RESTAURANT** shall have a dining room or rooms, a kitchen and the number and kinds of employees necessary for the preparing, cooking and serving of meals.

(B) *License application requirements; documentation.* An applicant for a full-service restaurant on-sale license shall provide sufficient documentation to the municipality with an application form provided by the municipality to prove that the primary source of revenue from the operation of the restaurant will be derived from the sale of prepared food and non-alcoholic beverages and not from the sale of alcoholic beverages. The supporting documentation concerning the primary source of revenue submitted pursuant to this section is confidential.

(C) *Annual reports.* The full-service restaurant on-sale licensee shall submit an annual report and supporting documentation to the city on forms provided by the city of the annual sales of the full-service restaurant, which includes an oath verifying the validity of the information provided in the report. The report and the supporting documentation submitted pursuant to this section are confidential. The report shall contain the annual gross sales of the licensee for the following two categories:

- (1) Food and nonalcoholic beverage sales; and
- (2) Alcoholic beverages sales.

(D) *License renewals.* When renewing a full-service restaurant on-sale license, the city shall condition the license renewal upon receiving documentation that not more than 40% of gross sales from the preceding 12 months operation of the full-service restaurant is derived from the sale of alcohol or alcoholic beverages.

(E) *Only retail on-sale service permitted.* A full-service restaurant on-sale licensee may only serve alcoholic beverages for on-premises consumption in the bar and dining room area of the restaurant.

(F) *Smoking prohibited.* No licensee that has a full-service restaurant on-sale license may allow smoking on the licensed premises.

(G) *Full-service restaurant license fees.*

(1) As required by state law, the license fee charged for a full-service restaurant on-sale license shall be at or above the current fair market value for such license, as determined herein. However, any fair market value so established shall be a minimum of \$1 for each person residing within the city as measured by the last preceding decennial federal census.

(2) The license fee shall be initially established by resolution within 90 days of the initial adoption of this section. Subsequent changes in the license fee shall not be made for a period of ten years from the effective date of adoption of this section unless a population growth reported by the federal decennial census requires an increase in the fee.

(3) Fair market value for full-service restaurant license shall be established as follows.

(a) Within 90 days of the effective date of this section and as required by state statute, each licensee within the city who owns an on-sale license issued pursuant to SDCL § 35-4-2(4) or (6) shall report the amount originally paid for the on-sale license to the city's Finance Department on forms provided by the city. Any form submitted pursuant to this provision shall be signed under oath and shall include the documents establishing the amount originally paid for the on-sale license. If the transaction for the purchase of the on-sale license included real or personal property, the full market value of the real or personal property on the date of the original sale shall be deducted from the total transaction price to determine the amount paid by the licensee for the on-sale license. The burden of establishing the amount paid for the license shall be on the licensee. Any licensee contesting the fair market value of the real or personal property may appeal the valuation adopted by the city to circuit court.

(b) For purposes of this section, pursuant to SDCL § 35-4-117, the term **CURRENT FAIR MARKET VALUE** means the documented price of the on-sale license most recently sold through an arm's-length transaction, less the value of any real or personal property included in the transaction. If there are no documented sales of on-sale licenses, the municipality or county may request from any on-sale license holder within the municipality or county, the date and price originally paid for its on-sale license to determine the current fair market value.

(H) *Registry of full-service restaurant on-sale licensees.* The city shall maintain a registry of each full-service on-sale restaurant license that is being offered for sale and the city shall furnish a copy of the registry to anyone who requests a new-full service restaurant on-sale license. The existing full-service restaurant on-sale licensee is responsible for registering with the city that the full-service restaurant on-sale license is for sale.

(I) *Issuance of new full-service restaurant licenses restricted.* The city may only issue a new license pursuant to this section if no on-sale license is on the registry or a person desiring to purchase an on-sale license listed on the registry provides documentation showing that the person is unable to purchase the on-sale license at the price established in division (G) above and on terms satisfactory to both the potential buyer and seller. The price of any on-sale license registered as "for sale" with the city shall

be sold at the current fair market price set by the city pursuant to a resolution adopted in accordance with division (G)(2) above.

§ 154.01 AUTHORIZATION.

(A) The legislature of the state has, in its codified laws, delegated the responsibility to local government units to adopt regulations designed to promote the public health, safety and general welfare of its citizenry. SDCL §§ 9-36-15 and 9-36-16 grant municipalities the power to enter into agreements for cooperation in flood control projects and their implementation.

(B) Therefore, the Council does ordain as follows.

(1) The flood hazard areas of the city are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.

(2) These flood losses are caused by the cumulative effect of obstructions in areas of special flood hazard which increase flood heights and velocities, and when inadequately anchored, damage uses in other areas. Uses that are inadequately flood-proofed, elevated or otherwise protected from flood damage also contribute to the flood loss.

(Prior Code, § 17.08.010) (Ord. 1997-2-1, passed - -1997)

§ 154.02 PURPOSE.

It is the purpose of this chapter to promote the public health, safety and general welfare, and to minimize public and private losses due to flood conditions to specific areas by provisions designed:

(A) To protect human life and health;

(B) To minimize expenditure of public money for costly flood control projects;

(C) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;

(D) To minimize prolonged business interruptions;

(E) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in areas of special flood hazard;

(F) To help maintain a stable tax base by providing for the sound use and development of areas of special flood hazard so as to minimize future flood blight areas;

(G) To ensure that potential buyers are notified that property is in an area of special flood hazard;
and

(H) To ensure that those who occupy the areas of special flood hazard assume responsibility for their actions.

(Prior Code, § 17.08.010) (Ord. 1997-2-1, passed - -1997)

§ 154.03 OBJECTIVES.

In order to accomplish its purposes, this chapter includes methods and provisions for:

(A) Restricting or prohibiting uses which are dangerous to health, safety and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;

(B) Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;

(C) Controlling the alteration of natural floodplains, stream channels and natural protective barriers, which help accommodate or channel flood waters;

(D) Controlling filling, grading, dredging and other development which may increase flood damage;
and

(E) Preventing or regulating the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards in other areas.
(Prior Code, § 17.08.010) (Ord. 1997-2-1, passed - -1997)

§ 154.04 DEFINITIONS.

- (1) The overflow of waters; and/or
- (2) The unusual and rapid accumulation or runoff of surface waters from any source.

SUBSTANTIAL IMPROVEMENT. Any repair, reconstruction, rehabilitation, addition or other improvement of a structure, the cost of which equals or exceeds 50% of the market value of the structure before the "start of construction" of the improvement. This term includes structures which have incurred "substantial damage", regardless of the actual repair work performed. The term does not, however, include either:

- (1) Any project for improvement of a structure to correct existing violations of state or local health, sanitary or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or

- (2) Any alteration of a "historic structure"; provided that, the alteration will not preclude the structure's continued designation as a "historic structure".

(Prior Code, § 17.08.020) (Ord. 1997-2-1, passed - -1997)

§ 154.05 LANDS TO WHICH CHAPTER APPLIES.

(Prior Code, § 17.08.030) (Ord. 1997-2-1, passed - -1997)

§ 154.08 INTERPRETATION.

In the interpretation of this chapter, all provisions shall be:

(A) Considered as minimum requirements;

(B) Liberally construed in favor of the governing body; and

(C) Deemed neither to limit, or repeal, any other powers granted under state statute.
(Prior Code, § 17.08.030) (Ord. 1997-2-1, passed - -1997)

§ 154.09 WARNING AND DISCLAIMER OF LIABILITY.

This chapter shall not create liability on the part of the city, any officer or employee thereof, or the Federal Emergency Management Agency for any flood damages that result from reliance on this section or any administrative decision lawfully made thereunder.
